Drop

Drop Water Butt

Stunning texture and shape

The Drop, as the name suggests, is inspired by the shape of a water drop. It adds a sense of calm to the garden. The deeply grooved wavy line surface texture is reminiscent of a meandering stream. Similar to the sand patterns seen in Zen gardens.

Ideal for modern gardens.

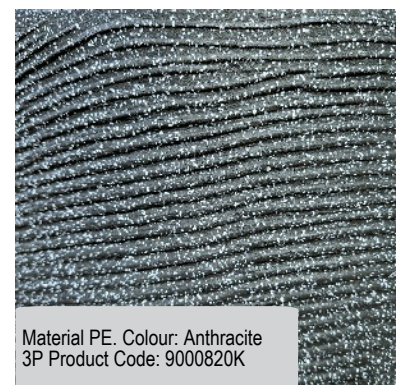

The butt features a $\frac{3}{4}$ " brass connection point for a screw in tap and a lower front outlet for draining or connecting to another tank. Supplied with a chrome plated brass tap and removable plant pot with retractable handles.
